Price Supports For 25 Years Foreseen

TULSA, Okla., Nov. 17.—(AP)—There may be a day when it will not be necessary for tax dollars to support the country's farm prices but it's at least 25 years away, United States Senator Clinton P. Anderson, Democrat, New Mexico, said here today.

The former secretary of agriculture, here to address a joint farm club-Chamber of Commerce luncheon, made his remarks in an interview.

Until there is a balance between population and production, Anderson said, government support for farm commodities must be regarded as a permanent part of the nation's economy.

Churchill, Bevin Clash Over German Policy

LONDON, Nov. 17.—Winston Churchill demanded today that Britain support the new West German Republic for a seat in the Assembly of Europe.

Churchill was replying to Foreign Secretary Bevin in a House of Commons foreign-affairs debate. The wartime prime minister rapped Bevin's policy on dismantling German industrial plants and Britain's support of Communist Czechoslovakia for a seat on the United Nations Security Council.

On the recognition of the Chinese Communists, Churchill said Britain should act only after consultation with the Commonwealth and the United States.

Bevin retorted that he, United States Secretary of State Acheson and French Foreign Minister Schuman agreed recently in Paris to a slowing up of dismantling of German industrial plants. He added he could not agree that West Germany should be admitted to the European Assembly by a majority vote of its 12 members.

Churchill indicated that if the Conservatives are returned to power in Britain they will put an end soon to dismantling.

Jailer Refers to Source

KNOXVILLE, Tenn.—(UP)—B. L. Newman, city jailer, had no ready answer when a woman demanded to know: "What woman was my husband with Saturday night when he was arrested?" Newman advised her to ask her husband.

Anderson said, government support for farm commodities must be regarded as a permanent part of the nation's economy.

Small Nations Protest Status As 'Kibitzers'

By MAX HARRELSON Associated Press Staff Writer LAKE SUCCESS, Nov. 17.—The Philippines told United Nations today small countries are mere kibitzers at the mercy of two Big Power blocs that are risking total war in a championship contest to dominate the world.

Salvador P. Lopez, the Philippines representative, said the world "has become too small for the giants" and added that "one side will try to push the other off the planet" unless something is done to stop their rivalry.

Lopez appealed to the United States and Russia to "let each other alone" and stop their "microphone diplomacy." Other Small Powers quickly joined in the double-edged appeal.

Fadhil Jamali of Iraq urged the Big Powers to stop "coining adjectives for each other." The Peruvian delegate, Victor Andres Belaunde, said he agreed wholeheartedly with Lopez.

The debate was in the 59-nation political committee of the General Assembly, which is discussing rival peace proposals of Russia and the Western Powers. Up to this morning the debate had been dominated by East-West clashes between Russia's Andrei Y. Vishinsky, on one hand, and Warren R. Austin, United States delegate, and Hector McNeill, British minister of state, on the other.

Lopez said Vishinsky had made it painfully clear that the business of peace is "exclusively the business of the Big Five, or rather of the Big Two." He added that the Small Powers "are merely spectators in this deadly game of chess."
